

To Whom It May Concern, I am writing to wholeheartedly recommend Julian for any upcoming software development projects. Control IT had the privilege of working with Julian on a freelance basis, where he was responsible for addressing and resolving various technical issues related to PHP, SQL, PHPmyadmin, and javascript. Julian's technical abilities are truly outstanding. He possesses an in-depth understanding of these technologies and was able to quickly identify and fix problems with minimal guidance. His ability to think creatively and come up with effective solutions to complex issues was particularly noteworthy. Furthermore, Julian's work ethic and attitude were exceptional. He was always professional, reliable and responsive. He was able to work collaboratively with our team, and was able to complete the project on time and within budget. We at Control IT highly recommend Julian for any software development projects. He will be a valuable asset to any team, and we would be more than happy to work with him again in the future.

Sincerely,

Luz Dary Correa Mendez
